Piano Lessons

Module 5

Content :
1. Circle of Two
2. Circle of Fourth
3. Circle of Fifth
4. Perfect Fifth
5. Perfect Sixth

Circle of Two

This is where you play using the intervals of two or the second note in the key or two semitones.

Circle of Fourth

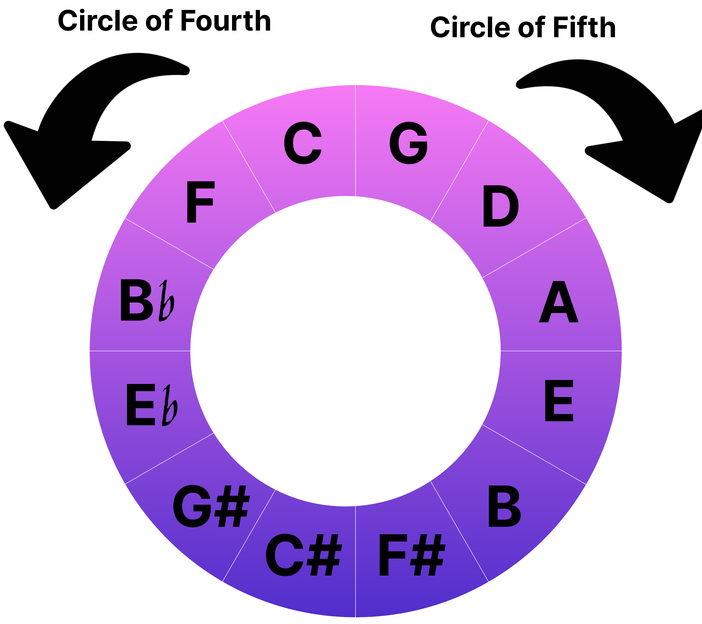
This is where you play using the intervals of four or the fourth note in the key or five semitones.

Circle of Fifth

This is where you play using the intervals of five or the fifth note in the key or seven semitones.

There is a big relationship between the circle of forth and the circle of fifth, here is a chart to help you understand.

Clock wise shows the Circle of Fifth, each being the fifth note of the previous note, you can play it as a single note or a chord.



Anti-clock wise shows the Circle of Fourth, each being the fourth note of the previous note, you can play it as a single note or a chord.

Perfect Fifth

This is where you play two notes using the intervals of five in the same key or the first and the fifth note in the same key or seven semitones.

Perfect Sixth

This is where you play two notes using the intervals of six in the same key or the first and the sixth note in the same key or nine semitones.

End of Module 5.
