Piano Lessons

Module 3

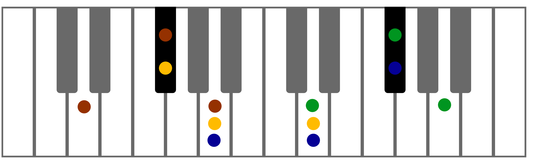
Section (ii)

Content : 1. Chord Inversion
a. Root Position
b. First Inversion
c. Second Inversion
d. Third Inversion

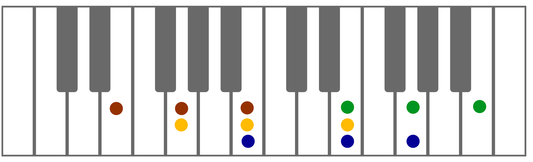
Chord Inversion

Chord Inversion is the changing of chord position without changing the chord sound. Inversions can be done as you raise or lower the chord across octives.
Root position is same as the Third inversion, the difference is that one is in a different octive.

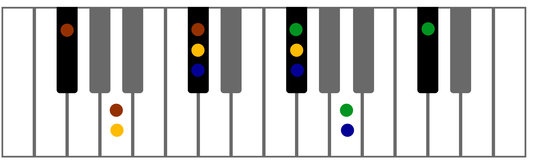
Chord 1.



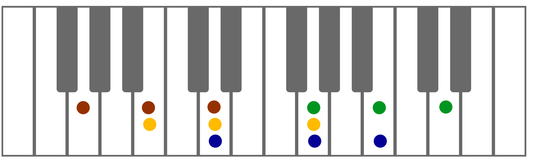
Chord 2.



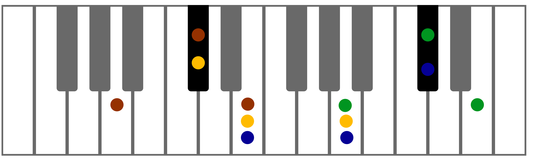
Chord 3.



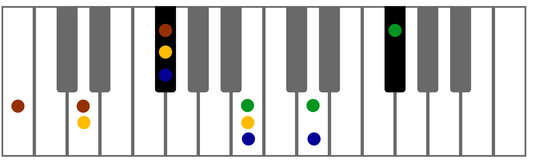
Chord 4.



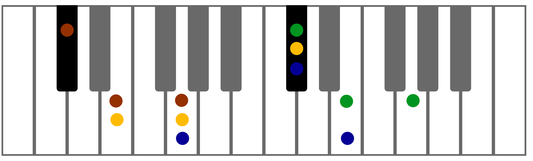
Chord 5.



Chord 6.



Chord 7 (Dim).



● = Root position

● = First Inversion

● = Second Inversion

● = Third Inversion

Practice all chord inversions till you are comfortably playing in all the octives

End of Module 3(ii).
